

High Tonnage Hydraulic Lifting Jacks And Hydraulic / Mechanical Traversing System

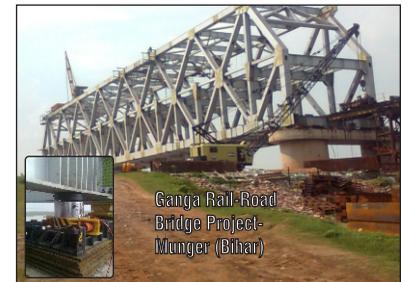

Capacity 25 - 1000 ton / Stroke 50 - 500 mm / Working Pressure 700 bar

Hydraulic Traversing System

Specifications

- Lifting Capacity : 150 - 1000 tons (1472 - 9810 kN)
- Stroke : 50 - 300 mm
- Traversing Capacity : 150 - 1000 tons (1472 - 9810 kN)
- Travel : 200 - 300 mm

Mechanical Traversing System

Specifications

- Lifting Capacity : 25 - 100 tons (267 - 1077 kN)
- Stroke : 50 - 500 mm
- Traversing Capacity : 25 - 100 tons (267 - 1077 kN)
- Travel : 200 - 300 mm

■ Higher capacity and customized solutions on request. ■ Specifications are subject to change due to continual improvement.
■ Capacity and Stroke specified are maximum safe limits. As safe practice, use at 80% of rating.
